**NOTICE OF PUBLIC
COMMENT PERIOD**

The Office of Air Resources offers an opportunity for public comment regarding its proposal to issue revised Emissions Caps for the following stationary sources:

Cumberland Quarry Corporation, 6 Manville Hill Road, Cumberland, RI
The Hinckley Company, One Little Harbor Landing, Portsmouth, RI

Emissions Cap No. 87-2009 for the Cumberland Quarry Corporation is being revised to address a newly permitted engine/generator set.

Emissions Cap No. 108-2009 for The Hinckley Company is being revised to incorporate requirements from Air Pollution Control Regulation No. 35, "Control of Volatile Organic Compounds and Volatile Hazardous Air Pollutants from Wood Product Manufacturing Operations" to limit volatile organic compound and hazardous air pollutant emissions from wood product operations at the facility.

Both emissions caps were initially issued on 3 July 2009 and the Cumberland Quarry Corporation's emissions cap was later revised on 12 October 2010.

Air Pollution Control Regulation No. 29, "Operating Permits," contains provisions to allow sources to apply for an emissions cap. An emissions cap must be federally enforceable and include some combination of production and/or operational limitations to ensure that emissions are limited by quantifiable and enforceable means. An emissions cap relieves the stationary source from the requirement to obtain an operating permit.

The public comment period for the revised emissions caps will begin today and continue until 18 March 2013. A public hearing for interested persons to appear and submit written or oral comments on the draft emissions caps will be held if requested by 10 or more persons, or by a governmental subdivision or agency or by an association having not less than 10 members. Any interested person may request that a public hearing be held.

Written comments, to be considered part of the record must be submitted during the public comment period. Written comments or requests for a hearing may be sent to the Office of Air Resources at the address below until 4:00 PM, 18 March 2013, at which time the public comment period will close.

The draft emissions caps are available for inspection at the Office of Air Resources, 235 Promenade Street, Providence RI from 8:30am to 4:00pm. For more information, contact either Ruth Gold or Richard Younkin at (401)222-2808 (toll free 1-800-752-8088, TTY 711).

Signed this 6th day of February 2013

A handwritten signature in black ink, reading "Douglas L. McVay". The signature is written in a cursive style with a large, stylized "D" and "M".
